

Round Face

Round face

A round-shaped face is fuller and generally holds its youthful appearance longer than the other face shapes. It's shorter, fairly wide, with full cheeks and a rounded chin.

IF YOU HAVE A ROUND-SHAPED FACE:

- Highlight your forehead, underneath the eyes just on top of the cheekbones, and the center of your chin to draw attention to the center of your face.
- Contour your temples, cheeks, and jaw line with a bronzer or a product that is one or two levels darker than our skin tone to create the illusion of an oval.
