

First and foremost I want to thank Donna Bayes, who originally published the Beauty Bash Book. Yes, she used her knowledge gained from Robert Jones, but she did the publication. Many of us have added and subtracted, but she deserves the accolade on this dynamic success tool. It is the perfect tool—it has eliminated the guess work out on color. Use or delete any pages you desire.

This version of the Beauty Bash Book, brought up-to-date in color cosmetics, product knowledge and application techniques, and primarily done for our Unit's new Consultants, but certainly everyone else ought to re-print and update their own.

**Due to this being a HUGE file, it has been printed in three parts.** Save to your computers and print when you've assembled the proper tools:

- 2 inch sturdy spiral notebook with front cover sleeve and pockets on the inside front and back covers (the one at Wal-Mart that I purchased has two pockets on inside covers – super!)
- Into the inside front pockets you can place your placemats, Beauty Menu Closing Sheets, Look Books, Profile Cards, and Sales Tickets; into the back inside pocket, you can place the Product Promise, additional copies of the Eye Shapes to give to my customers, and printed Team Building Literature.
- Tab divider sheets (5+),
- Plastic sheet protectors for printed copies.
- For printing, use 24+ pound paper, but not card stock (up to you), and I place two sheets, back-to-back in one sleeve, when appropriate, but again it's up to you.

The first sheets of your Beauty Book will, of course, change as new seasons and products come about.

Most all the product knowledge sheets come from MK's Web Site, but three that could not be inserted as they were protected:

- (1) Lipstick/Lip Liner/Lip Gloss product knowledge sheet from MK—insert right after the final lip gloss sheet – Page 25
- (2) Women's Fragrance Chart—insert at the end of Product Knowledge Comparison Charts but before Psoriasis sheet .
- (3) Men's Fragrance Chart—insert after the Women's Frangrance Chart.

Also the Order of Application pages do not have all the current products. Replace with current one. The only suggestion, and something that is not in this Beauty Bash Book are the **Product Knowledge Fact Sheets**. You can pick and choose which ones you want to print and insert. They can be found on InTouch—Products—Product Central—Products (list of products come up—choose the one you want and click on it then when it opens up in the right hand corner click on "Product Fact Sheet")

So PRINT and put your Beauty Bash Book together!!
