

Here's an email to help you sell \$1000 in one DAY! Send this to your very best supporters and customers (call them first to explain-very important that they understand this is important to you!) and ask them to forward to their email distribution lists.

Substitute your Mary Kay website address and personal info where mine is and send away!!!

TIPS:

- Choose 3-5 "web hostesses" that are generally not willing to book any other kind of appointment with you
- Don't forget about out-of-town relatives and friends. They can help!
- Call them today and introduce the idea, asking for their help
- Send the email with their permission asking them to forward it the day or so before your chosen \$1000 Day (I strongly recommend a week day)
- Follow back up with your web hostess the day before to remind her to send the email out again

You may choose to text or call your hostesses partway through the day to let them know how things are going. Enrolling them in your goal makes them want to help even more!

I HAVE A BIG GOAL!
