the best makeup colors to bring out your natural beauty and not look overly made up?

whether your blush should be pink or peach?

which glamour shades you should avoid while being photographed?

All of these questions and many more can be answered for you by a trained, Professional Beauty Consultant at your free consultation.

Do you know...

that the type of skin you have determines how you should care for it?

that it is not uncommon for brides to experience stress related break-out problems during the months prior to the wedding date?
