

Your skin tells so much about you! You may think that when you first meet people they pay attention to your warm personality, but they are really checking out your skin. Everyone unconsciously does this. Why? From your skin they can tell your age, your health and whether you are stressed or friendly. Your skin gives off clues that you don't even realize. You don't want people to think that you are older than you really are based on your looks. You can prevent this by preventing some of the signs of aging. Here are the primary signs of aging:

- Fine lines and wrinkles
- Uneven skin tone (age or sun spots)
- Rough texture
- Sagging skin

Where do the signs of aging show up first? Eyes, throat, hands, & décolleté.

Our Miracle Set is a one-of-a-kind skin care regimen. These five products slow down the premature aging of the skin in an efficient, effective, and competitively-priced set. It's unique in the marketplace...and tonight *you* get to try it yourself and give us your opinion!

You know, the skin is the largest organ in the entire human body...and its function changes. Just look at the difference between the skin on the backs of your hands versus the skin on the palm. Check out the skin around your eyes compared to the skin on your cheeks. It regulates temperature, warns us of danger, and holds us together! The least we can do is take good care of it, right?!

Skin care needs:

20s *Skin has already begun to decline even though it's not clearly visible

*Sun damage is cumulative and during these years we get a lot of it and engage in the risky behavior of tanning. Yikes!

- Thorough cleansing, consistent moisturization, and protection from the sun are vital.

30s

* We begin to notice the outward signs of aging.

- Skin requires more hydration and needs collagen support.

40s

- More wrinkles, sagging, dark spots, discoloration
- Sun damage is more apparent.
- Support structure decreases which increases sagging
- Skin has more difficulty retaining moisture
- Skin produces less oil causing even more wrinkling of the skin

60s

- Cellular turnover has slowed considerably
- Collagen breakdown is evident
- Skin has difficulty holding on to moisture
- Skin is producing less oil

We all need great skin care...so you are in for a real treat. Introducing our POWERHOUSE SKIN CARE; The Time Wise Miracle Set ... just five products to address all the needs of each age group. You are now going to get to sample it and give us your opinion!

(Give CLEANSER to each guest)

Warm it up between your fingers and dot it on your forehead, nose, chin, and both cheeks. Gently and thoroughly begin to massage your skin. You only need a small amount – this tube will last you three months!. The CLEANSER will gently and thoroughly remove dirt, makeup, and oil from your skin without drying it out. Feel the abrasion? Those beads will help exfoliate dead, dry skin and leave it glowing. The CLEANSER also includes a toner, which will freshen the skin.

(Rinse thoroughly with washcloth)

Doesn't that feel great?

First thing in the morning and last thing at night. It's critical to cleanse your skin twice every day.

(Give DAY SOLUTION to each guest)

The DAY SOLUTION goes on clean skin every morning. It has an SPF of 25 which will protect the skin from incidental sun exposure. Think of it was a veil of defense. It helps prevent lines and discoloration before they occur by blocking damaging rays. Plus calming peptides relax expression lines.

Daytime *protection*.

(Put NIGHT SOLUTION on the back of each guest's hand)

Nighttime *correction*.

The NIGHT SOLUTION helps fade away deep lines and wrinkles. It acts like a mild chemical peel.

Daytime protection. Nighttime correction.

(Show line-up and order of application as you place products on the table)

(Give MOISTURIZER to each guest)

Warm it up between your fingers and dot it on your forehead, nose, chin, and both cheeks. Gently and thoroughly begin to massage your skin. You only need a small amount – this tube will last you three months.

The MOISTURIZER contains humectants that chemically bind water to themselves and don't give it up to the air – to evaporation. (Examples: grapes/raisins plum/prune) (Explain difference between Dry and Combo/Oily)

(FOUNDATION is already on each tray)

Warm it up between fingers and dot it on your forehead, nose, chin, and both cheeks. Gently and thoroughly begin to massage your skin. You only need a small amount – this tube will last you three months.

The foundation is transfer-resistant and is designed to cover minor imperfections and give the skin a smooth, even finish. It is a fabulous protector for all that your skin faces throughout the day!

And it comes off completely with our – CLEANSER!

See how effectively and supportively these five products work together?

The results are guaranteed when all five products work together!

It's a MIRACLE!!! :)
